

## Concise configuration of VSCode for competition

`tasks.json` (Optional) Replace `.exe` with `${fileBasenameNoExtension}`

```
{
  "version": "2.0.0",
  "tasks": [
    {
      "label": "build",
      "type": "shell",
      "command": "cls; g++ '${file}' -std=c++14 -Wall -o .exe"
    },
    {
      "label": "run",
      "type": "shell",
      "command": "cls; Get-Content ./sample.in | ./exe > ./sample.out"
    },
    {
      "label": "buildrun",
      "type": "shell",
      "command": "cls; g++ '${file}' -std=c++14 -Wall -o .exe; Get-Content ./sample.in | ./exe > ./sample.out"
    }
  ]
}
```

`keybindings.json` Ctrl+K Ctrl+S

```
[
  {
    "key": "shift+numpad_add",
    "command": "editor.action.fontZoomIn"
  },
  {
    "key": "shift+numpad_subtract",
    "command": "editor.action.fontZoomOut"
  },
  {
    "key": "f9",
    "command": "workbench.action.tasks.runTask",
    "args": "build"
  },
  {
    "key": "f10",
    "command": "workbench.action.tasks.runTask",
    "args": "run"
  },
  {
    "key": "f11",
    "command": "workbench.action.tasks.runTask",
    "args": "buildrun"
  }
]
```

`settings.json` Auto Save

```
{
  "files.autoSave": "afterDelay"
}
```
